ABOUT CGS

Condé Global Solutions LLC (CGS) is a woman- and minority-owned small business delivering high-performance administrative, compliance, workforce, and mission-support services to public-sector organizations. Founded in 2025, CGS combines experienced leadership, standardized operating procedures, national partner networks, and scalable delivery infrastructure designed for agility, speed, accountability, and measurable impact.

CORE CAPABILITIES

Defense & National Security Systems Secure IT infrastructure, mission-critical systems support, cybersecurity solutions, national security systems support, and technology services.	Workforce Development & Cyber Readiness Upskilling, reskilling, cybersecurity workforce programs, compliance and risk readiness, and technology workforce initiatives.	Talent Solutions & Workforce Support Program staffing, managed workforce solutions, cleared talent acquisition, and temporary or contingent staffing.
Facilities Management & Base Operations Janitorial and custodial services, facilities maintenance, base operations support, and site access-control staffing.	Infrastructure Support & Site Services Light construction, minor renovation, disaster-response site preparation, grounds maintenance, site logistics, and materials handling.	Protective Services & Security Operations Armed and unarmed security, access control, entry screening, site patrol, surveillance, and housing-program security support.
Command Center & Technology Support Services Help desk support, system monitoring, remote troubleshooting, telecommunications and network management, and disaster-recovery technology support.	Mission Support Logistics & Procurement Administrative & program support, procurement & acquisition assistance, vendor sourcing, supply coordination, equipment fulfillment, and emergency-response logistics.	Transportation & Mobility Operations Agency transportation, fleet leasing and vehicle management, courier and secure delivery logistics, and emergency or rapid-response mobility.

WHY CGS

Enterprise-Grade Industry Connectivity With reach across 100+ industries and more than 5,000 corporate relationships, CGS brings established access to talent, partners, and local capacity.	National Reach with Embedded Access CGS operates with relationships spanning all 50 states, supporting regional coordination, local capacity, and scalable delivery across multiple geographic environments.

LEADERSHIP EXPERIENCE & DELIVERY PROOF POINTS

CGS is a newer entrant to federal contracting, while its leadership brings more than a decade of cross-sector professional experience in business operations, program execution, workforce strategy, stakeholder engagement, and compliance-backed systems. The following metrics reflect leadership and professional experience across public-private environments and demonstrate the depth of experience available to CGS clients.

500+ Employer partners / active relationships	5,000+ Corporate relationships across 100+ industries	\$10.4M+ Program budgets influenced	5,200+ Workforce & compliance stakeholders served
137 Intake & discovery sessions conducted	16+ Standardized SOPs & delivery systems built	~5.5K Workforce & technical data points analyzed	98.8% On-time milestone delivery

National Reach: Professional relationships and delivery experience spanning all 50 states, with an active network across public and private sectors. **Operating Model:** 16+ SOPs, live QA mechanisms, structured onboarding, centralized oversight, and contract-ready delivery frameworks.

WHY CGS

Focused by Choice, Not by Limitation

CGS maintains a broad service portfolio while organizing delivery around core areas where experienced leadership and established operating systems create the greatest value. This deliberate focus supports targeted execution, faster scaling, and compliance-minded delivery.

Federal-Ready Operational Precision

With 16+ SOPs, live QA mechanisms, structured subcontractor onboarding, and deliverable-tracking systems, CGS is built to measure, refine, and maintain performance. Our processes emphasize accountability, consistency, and audit-ready documentation.

RELEVANT EXPERIENCE

CGS leadership brings extensive experience managing employer and vendor relationships, strategic planning, performance tracking, service design, internal systems, stakeholder engagement, and outcome measurement. Professional experience includes supporting or influencing more than \$10M in program budgets and managing relationships with hundreds of employers, vendors, and corporate partners.

Leadership experience also includes managing a \$35M loan portfolio within four months while serving as a Business Development Manager for a certified third-party lender. This work provided direct exposure to SBA-aligned lending frameworks, procurement, compliance, financial accountability, and public-facing business ecosystems.

At the operational level, CGS has translated this experience into standardized SOPs, service delivery models, subcontractor onboarding processes, and deliverable-tracking infrastructure designed with federal compliance in mind. This experience provides CGS with a strong foundation for scalable, compliance-minded federal delivery.
